**Subject:** Microsoft Settlement

Greetings,

I am writing because the proposed Microsoft settlement is no where near harsh enough a punishment. In fact, it very much appears that they are buying their vindication.

The injustices caused by Microsofts anti-competitive business practices are much too great. Companies have died because of it, good technologies have been forgotton because of it.

Please rethink your decision to let them off with a slap on the wrist.

Sincerely,  
Seth House
